

COMPUTER REQUIREMENTS

Butler Tech Online courses are Internet based and generally work on any computer with Internet access. If a student plans to use a computer that has not been provided by Butler Tech Online, he/she should go to the login page and review the results of the System Checker. If the student has all green checkmarks, they should have no problems using BTOL courses. If the student has any red x's, they should take steps to correct the issues that are shown.

The following are the recommended System Requirements.

Minimum System Requirements for PC

Operating System	PCs running MS Windows, Macs running OS X
Internet Browser	Internet Explorer or Firefox
Audio	Sound card with speakers/headphones
Browser settings	Java, JavaScript and cookies enabled
